

Community Support

Fund a year – A \$5,000 annual donation provides a Questa scholar with a year of funding to pursue a certificate or degree. 100% of the donation goes directly to students' educational expenses. The small portion of funding that scholars repay after graduation is reinvested in future scholars, making your donation go even further to support students and develop Northeast Indiana's workforce.

Fund a degree – A \$20,000 annual donation supports a traditional Questa scholar to complete a four-year degree. 100% of the donation goes directly to students' educational expenses. Traditional scholars receive \$5,000 a year for each year of college. The small portion of funding that scholars repay after graduation is reinvested in future scholars, making your donation go even further to support students and develop Northeast Indiana's workforce.

Employer Partnership

Fund future employees – Partner with Questa to develop a specialized scholar program unique to the hiring needs of your organization. Questa staff will administer a fund designed to support students in the academic majors and degree programs that meet your greatest hiring needs. Specialized scholar programs can support incoming students, helping to develop the talent pipeline for your industry, or returning students closer to graduation, helping to connect upcoming graduates with your organization for employment opportunities. Questa staff will help facilitate connections between scholars and internship and employment opportunities at your organization. In addition to 50% forgiveness for live/work requirements provided to all Questa scholars, organizations have the option to provide 100% forgiveness for scholars who accept employment at their organization.

Fund current employees – Partner with Questa to provide funding for your current interns and employees seeking financial assistance with their post-secondary educational expenses. Questa staff will administer a fund to support your employees and coordinate with your human resources team to determine eligibility and forgiveness criteria. Unlike many tuition reimbursement programs, Questa programs provide funds up front to help employees with education expenses as they enroll, rather than being reimbursed after they complete.

For more information, contact Elizabeth Bushnell, Executive Director of the Questa Foundation at ebushnell@questafoundation.org or 260-407-6494 ext. 105.
